

*Judges' Code of Ethics
ISC West 2012*

To ensure fair and unbiased judging of the Security Industry Association's New Product Showcase, we have instituted the following code of ethics. Please read through them carefully and sign below.

As a New Product Showcase judge, I promise to:

1. Demonstrate objectivity and fairness throughout the judging process.
2. Reveal *prior to the judging* any conflict of interest that will prohibit me from fairly rating a product.
3. Recuse myself from judging any product from a manufacturer that I am currently being paid to work with.
4. Support the program by refraining from any public criticism of it.
5. In the course of judging, keep all conversations about a specific product or service confidential. I will not reveal to the entrants which judges voted against them or criticized their product.
